SUMMARY

Let's build an awesome product together.

What started as a favor to create a simple website for my parents' photography business at age fourteen has become a passion and career as I produce best-in-class experiences today. Careful and concise design and development are fundamental in creating the most successful solutions for any product. I am here to not only help achieve business goals, but to also deliver cutting-edge experiences in an ever-changing and competitive industry that are sure to meet user needs.

A few of my personal qualities...

- ♦ Creative
- ♦ Leader
- ♦ Team-player
- ♦ Professional
- ♦ Ambitious
- ♦ Organized
- ♦ Dedicated
- ♦ Passionate

PROFESSIONAL EXPERIENCE

The Church of Jesus Christ of Latter-day Saints

JUNE 2018

Senior Front-end Developer

Developed and maintained a large-scale, mission-critical financial application used by a global accounting team of 200 to manage donations, transactions, banking, reporting, fund reconciliation, and error resolution.

- ♦ Delivered high-quality, accessible features in partnership with design, QA, and cross-functional teams.
- ♦ Built reusable components, optimizing performance and scalability while adhering to industry best practices.
- ♦ Led and implemented a design refresh to align with modern standards and most recent brand design language.
- ♦ Improved code quality by enforcing better coding standards using tools like ESLint and Prettier.
- ♦ Contributed to Agile workflows, streamlined processes, mentored developers, and managed pull requests to ensure efficient development.

HTML CSS JavaScript React Next.js GraphQL Git Figma

Verizon Wireless

JUNE 2017

Senior Software Engineer / UI Designer

Created a design system and built a frontend project from the ground up using React for operations.

HTML CSS JavaScript React Git Sketch

Intuit

APRIL 2016

Senior Software Engineer / UI Designer

Worked on a product that helps accountants better communicate and get documents from their clients. I helped in the transition from AngularJS to ReactJS.

HTML CSS JavaScript React Git Sketch

SolutionStream

JULY 2014

Senior UI/UX Designer & Developer

I worked on various projects for clients & used a wide array of technologies, techniques and styles.

HTML CSS JavaScript Angular 1.x Git Sketch Photoshop Illustrator Node.js

USANA Health Sciences

DECEMBER 2013

Senior UI/UX Design & Development Specialist

I ensured that all of the designs we were using, were consistent in both function and aesthetic. I designed, developed, and lead the creation of their new web interface for their sales associate portal.

Ancestry.com

MARCH 2013

Senior UI/UX Designer

I lead the UX/UI design & front-end development for their in-library product. In this position, I was responsible for designing multiple user flows which were user tested with wireframes, mockups and prototypes.

Others Include 2002 – 2012

KiN2.me, MediaFire, and University of Texas at Houston

OTHER PROJECTS

CodeEdit

MARCH 2022

A code editor, open source and natively built for macOS

Founded and led the development of CodeEdit, an open-source, native macOS code editor with over 20,000 stars on GitHub, designed to deliver high performance and a seamless user experience tailored to Apple's ecosystem.

- ◆ Built core editor features while adhering to Apple's Human Interface Guidelines.
- ◆ Designed a scalable Swift application architecture using SwiftUI and AppKit frameworks.
- ◆ Mentored contributors and led weekly planning meetups to foster project and community growth.
- ◆ Managed milestones, issues, and releases to ensure timely delivery and alignment with goals.
- ◆ Released modular Swift packages to enhance reusability and streamline development.

REFERENCES

Tiffany Chambers

SolutionStream

“ Austin is truly one of the most talented people I know. From my first interaction with him I have been highly impressed by his professionalism, technique, and out right passion for technology. Austin is one of those people who belongs in technology. Some people strive to be the best in their field and for Austin it comes naturally. I would highly recommend Austin for anything from an individual contributor role to managing a design team.

Brian Hansen

Ancestry.com

“ Austin is comfortable with both visual design and building working prototypes. He has strong CSS skills and is interested in keeping up with the latest tools and platforms. He responds well to coaching and is eager to learn and grow in his career.

Blake Scarbrough

Ancestry.com

“ Austin has a good eye on web design and can take a project and make it look good and usable. He has an excellent handle on CSS/HTML and whatever tool you throw at him. He is driven and interested in keeping up with latest trends within the industry.

Jeffrey Dibble

University of Texas at Houston

“ Austin Condif is the most creative, principled and innovative designer I have had the privilege of working with and getting to know. Austin has 'insane' creative and artistic design abilities. His natural and self-taught abilities excel those with degrees and experience already working in the field. Austin displays maturity, teachability and undaunted dedication to completing/exceeding project expectations. He has a courageous optimism to venture into unfamiliar territory and still deliver cutting-edge work.

SKILLS

UX/UI Design	Front-end Development	Next.js	iOS/macOS Development	Adobe After Effects
Conceptualization	HTML5	Webpack	Swift/SwiftUI	Apple Final Cut Pro
Wireframing	CSS	GraphQL	Sketch/Figma	Apple Motion
Prototyping	Javascript/Typescript	Node.js	Adobe Photoshop	Photo/Video
User Testing	React	Git	Adobe Illustrator	Project Management

HOBBIES

Open-source	Biking	Piano	Socializing	Self Education
Photography	Drawing	Good Food	Movies	Self Improvement
Scuba Diving	Interior Design	Travel	Music
